# A Commitment to Serve

## About CAVU in the Community

Giving back to communities in need is an essential part of the CAVU corporate culture. As a certified minority- and veteran-owned enterprise, we seek to share our business success and our personal energies with organizations and causes that elevate lives and improve opportunities for disadvantaged communities, military veterans, and their families.

Through financial contributions and sweat we hope to serve as a catalyst for improvement in the lives and opportunities presented to members of these communities.

Our financial support includes shares of top line revenues from our Liquidity Management and Capital Markets divisions as well as direct grants from CAVU to targeted organizations and causes.

Our personal volunteer energies cover a broad range of causes and activities from hammering nails with Habitat for Humanity to coaching youth sports in communities near where our team members live.

We are grateful to CAVU clients and business partners who are helping to fuel growth in our philanthropic mission.
